

Color Copiers Model C3535/C4040

Color copiers on monthly service contracts are charged monthly on a cost per copy basis. Once the counter is verified monthly the amount of black copies and color copies are billed. Machines are billed at \$.006cpc for black and \$.01466cpc per color. Cost per copy rates are divided into black and white developments and color developments. Each color development is charged at \$.01466 this means that each development is charge so it would be one for each color (cyan, yellow, and magenta). Black development is charged at \$.006 per development. If you add \$.01466 one for each color and the \$.006 for black the total charge is \$.05cpc.
